The Saint John Region Chamber of Commerce Granted Intervenor Status by
Nuclear Safety Commission

Chamber to Present at the Commission hearing in Saint John

May 4, 2022, Saint John NB: The Saint John Region Chamber of Commerce has been granted intervenor status and will present to the Nuclear Safety Commission on May 10. The Chamber will speak on the regional economic benefits in support of NB Power's application for operating license renewal.

Point Lepreau is a significant contributor to the regional economy, resulting in annual salaries for direct jobs alone of approximately \$100 million dollars. Nonrenewal would have numerous implications for the region.
